

# Ahmad Salih

Software Engineer (Frontend developer)

## About Me

Summary

Ahmad is experienced frontend developer with a strong background in ReactJS and modern web development technologies. Proficient in technologies such as ES6+ (Typescript), GatsbyJS, Pug/Jade, Sass, Webpack, Vite, and much more. Also Experienced in Backend technologies like NodeJS, ExpressJS, MongoDB, SQL. And he has hands-on building CI/CD pipelines with Docker and tools such as Circle CI, Travis CI, and GitHub Actions.

Now he is looking for a challenging role, Where he can *utilize* his skills and continue learning and growing as a developer.

## Technical Experience

Projects

### Fullcart (e Commercial platform)   WIP

<https://github.com/salihcodev/fullcart>

A Platform that manage people to sell their products online.

#### Key features

- Achieved *authorizing/authenticating* for users.
- Made a dynamic categories list that can handle countless number of categories.
