Ahmad Salih
Software Engineer *(MERN fullstack developer)*

About Me
Summary:

  I'm a general software engineer who usually uses the MERN Stack with experience in the front-end, in the back-end, not only but also gained some experience in mobile applications development (not big exp. but willing to build experience).

All this in various languages and technologies like ES6+ and (Typescript), Reactjs, React Native, Nodejs, MongoDB, Expressjs, Sass.

Recently I found a new interest, Golang

But mainly I'm working as a Frontend developer. Who built a lot of web applications using web technologies like Bootstrap (react-bootstrap), Reactjs, Gatsbyjs, Gulp, Pug/Jade, Sass, Ajax, Webpack

One of the other technologies I used before is Docker and built some simple CI/CD pipelines with the help of Circles, Travis also Github actions.

Technical Experience
Projects:

Fullcart *(eCommercial platform)* ___under progress___
 https://github.com/salihcodev/fullcart

Platform that helps people to sell their products online.

Key features

- Achieved *authorizing*/*authenticating* for users.
- Built *role* system for the users *customers/supplers.*
- Hotlist for *searching* in whole products, Also *show suggestions* about trinding searches.

Tech

Achievements
Certificates:

Software Design and Architecture Specialization *Coursera*

```
OBJECT ORIANTED DESIGN                                              ()
DESIGN PATTERNS                                                     ()
SOFTWARE ARCHTECTURE                                               ()
SOFTWARE ORIANTED ARCHTECTURE                                      ()
```

Programming with Google Go Specialization *Coursera*

```
GETTING STARTED WITH GO                             (November 2021)
FUNCTION, METHODS, AND INTERFACES IN GO             (December 2021)
CONCURRENCY IN GO                                   (December 2021)
```

------ *Coursera*

```
---                                                                ()
---                                                                ()
--                                                                 ()
```

Work Experience
Employment:

Upwork *freelancing*
upwork.com

Juni – 2019: Sep - 2020

Web Designer

Highlights

Learned some additional communication skills.

Achieved some progress in backend technologies, Because I needed it to finish some projects.

Became aware of UI & UX more than the beginning.

Education
Academic:

UNIVERSITY OF SADAT CITY
law.usc.edu.eg/ar

2017 – 2021

Law student

Languages:

    Arabic *native*

    English

    Deutsch
