PROFILE

A Frontend developer who is working on different types of projects. I enjoy figuring out tricky UI problems and making apps run smoothly—it's satisfying when you can transform something slow and frustrating into something fast and easy to use.

Simply put, I build interfaces that people love to use.

EXPERIENCE

WeCodeForYou, Cairo, Egypt — Sr. Frontend Engineer

Oct 2024 – Present

- Built responsive web apps serving 500+ daily users (MVPs)
- Distributed 6+ UI features quarterly with design and backend teams
